# AIP | Journal of Applied Physics

The World's Most Comprehensive  
Collection of Applied Physics Research

[jap.aip.org](http://jap.aip.org)

## **Journal of Applied Physics** The Most Highly Cited Archival Journal in its Field

In its latest analysis, Thomson Reuters recorded more than 100,000 citations of articles published in the **Journal of Applied Physics**—more than three times the number of the next ranked journal. After more than 75 years, JAP continues to push the boundaries of scientific research. The journal publishes groundbreaking articles that emphasize understanding of the physics underlying modern technology, including significant new experimental and theoretical results of research on semiconductors, magnetic materials, applied biophysics, and other fields.

### **2009 Thomson Reuters Journal Citation Data\***

*The most highly cited archival journal in Applied Physics*

Five-Year Impact Factor: 2.278

Impact Factor: 2.072

Immediacy Index: 0.364

Cited Half-Life: 8.4

EigenFactor Score: 0.32294

Article Influence Score: 0.877

\*Data from the 2009 Science Edition of Thomson Reuters's *Journal Citation Reports*®.

### **Applied Physics Reviews**

This key component of JAP features articles varying in length from short, authoritative summaries to comprehensive, critical, monograph-length reviews of specific applications.

### **Proceedings of the Annual MMM Conference**

Every year, **Journal of Applied Physics** brings you coverage of the Annual Conference on Magnetism and Magnetic Materials. The Conference brings together scientists and engineers interested in recent developments in all branches of fundamental and applied magnetism.

### **Special Topic Sections**

These collections focus on research of particular current or emerging interest. They may be composed of invited or contributed articles or may include select proceedings from a topical meeting.

# Scanning microscopies

## Semiconductors

# Surfaces, interfaces and thin films

# Applied biophysics

# Nanoscale science and design

## **Submit Your Research at [jap.peerx-press.org](http://jap.peerx-press.org) and Enjoy a Range of Valuable Benefits**

- Timely review and prompt publication
- Broad dissemination via worldwide online and print distribution networks
- High visibility for your work
  - Research Highlights—papers chosen by the editors and made freely available online spotlight some of today's most interesting research
  - Top 20 Most Downloaded—an online compilation of the month's most popular papers
  - EurekAlert!—an online, global news service to which AIP posts promotional information about its authors and their research

## **Get Easy Access to Online Tools Directly From the Article and Abstract Page**

- Related article browser
- Article objects tab displaying figures, tables, and multimedia
- Export figures to Powerpoint or download high-resolution images
- Recently viewed articles
- Share articles on delicious, Twitter, and other social networking sites
- Access citation data, including BibTex, COinS, EndNote, Medline, and RefWorks
- Highlight and search a string of text up to 150 characters and immediately see the top five results for that string in full-text HTML

## Superconductivity

## Condensed matter

## Defects in crystals

Optics, optical materials and lasers

# Plasmas and gas discharges

Electrical, optical, and magnetic devices

## Recently Added Features Enhance JAP's Value

### **JAP Articles Include Multimedia**

Video clips or animated movies can be included in the online versions of papers. Information for authors on incorporating multimedia material into their papers is available in the "Information for Contributors" posted on the journal's website at [jap.aip.org/jap/authors/information\\_for\\_contributors](http://jap.aip.org/jap/authors/information_for_contributors).

### **iResearch App—Download Articles to Your iPhone® or iPod touch®**

Thanks to iResearch, readers can now download and store articles to read offline later. All you need do is log on to your network and open the iResearch app. You can browse by issue, and when you find the article you want, click to download it. A PDF of the article is displayed on your iPhone or iPod touch screen and can be saved by clicking "Save Locally" (nonsubscribers will be given the option to purchase the article). Once saved, you can read the article any time without a wireless or WiFi connection. AIP's iResearch app is free from the iTunes® Store.

### **Mobile View Provides JAP Access Anytime—Anywhere**

Access the journal from any mobile device. Just point your browser to [jap.aip.org](http://jap.aip.org) to view the optimized site with full search and navigation functionality.

## Expert Editorial Guidance

As the Editor of **Journal of Applied Physics**, Dr. P. James Viccaro has guided the publication to its current position as the world's preeminent journal in applied physics. Dr. Viccaro is aided by Associate Editors and an Editorial Board whose combined expertise facilitates authoritative handling of papers across the breadth of the journal.

### EDITOR

**P. James Viccaro**  
The University of Chicago  
Chicago, IL, USA

### ASSOCIATE EDITORS

**Roy Benedek**
